

L629 Rev. D 03/03

For Date Codes Beginning with the Letter "O"

Note: early production models used a plunger and saddle combination. This has been replaced by a 1-piece solid plunger design.

Note: Base, item 13, is not available as a service item. Order complete jack assembly.

CAUTION: Indicates staked threads. Stake mark must be removed prior to disassembly. Failure to do so may result in damage to parts.

Some cylinder stop rings are assembled with Loctite material on threads. Enerpac suggests staking threads when reassembling.
